- 100% Woven Fiberglass
- CE Standard: EN-1896:2019

Where should I put my Canada Fire Blanket?

In our everyday spaces like kitchens, garages, BBQ areas, and campsites, the possibility of a fire breaking out is a reality we must acknowledge. These places, often filled with heat sources and flammable materials, can pose a risk if not handled with care. However, staying prepared is the key to ensuring safety.
